**Subject:** FW: MFAT statement

David Horvath just forwarded me the MFAT's statement on an upcoming meeting in Budapest of Jobbik and some fellow travelers – Attila was kind enough to do a quick translation.

As you may know, Nat Policy Inst is a white nationalist group out of Montana. 444.hu ran this item on the conference.

Text of statement:

MFAT deems it unacceptable that an American racist organization hold a conference in Hungary together with Russian radicals. Among the proposed participants of the conference planned by National Policy Institute for October 3-5 is Alexander Dugin, who is a well-known radical, racist and pan-Russian nationalist and anti-Ukrainian ideologue, founder of the National Bolshevik Party and Eurasia Party. Far-right representative Marton Gyongyosi is also on the list of speakers. The GOH distances itself from any assemblies that are racist or offensive to minorities based on their religion

<b>REVIEW AUTHORITY: Geoffrey Chapman, Senior Reviewer</b>
--

or descent, including the planned radical conference. Extremist circles want to use this conference to discredit Hungary on the international scene, which is unacceptable.
